

Service plan for Partner / Berlingo

Manufacturing date from February 2009 - transformation n° from 3600003

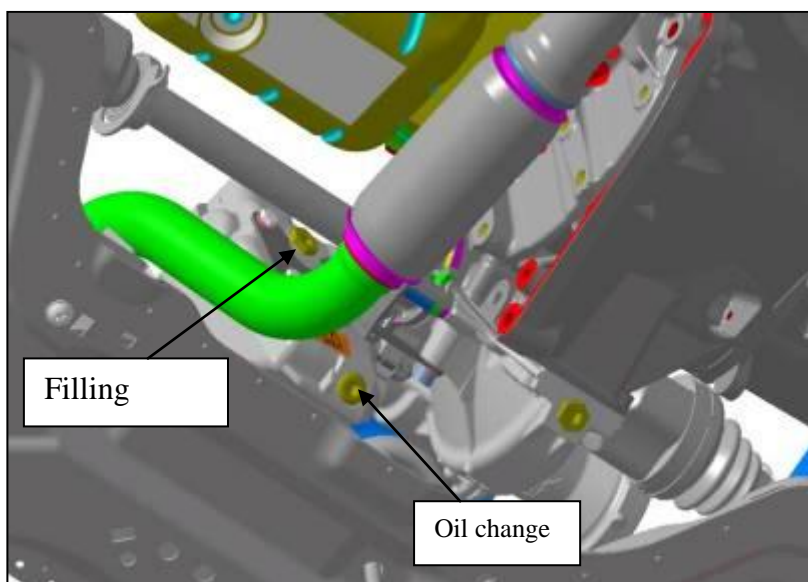

TRANSFER BOX

 **1ST guarantee inspection:** between 1.500 to 2.500 km

Capacity : 0,65 litres

Oil : 80 W 90 API GL5 (YACCO BVX LS 200), equivalent to **80W90** according to norm API GL5 ZF TE-ML05C.

Oil change : every 20.000 km or 2 years in normal use, every 15.000 km or 1 year in intensive use.

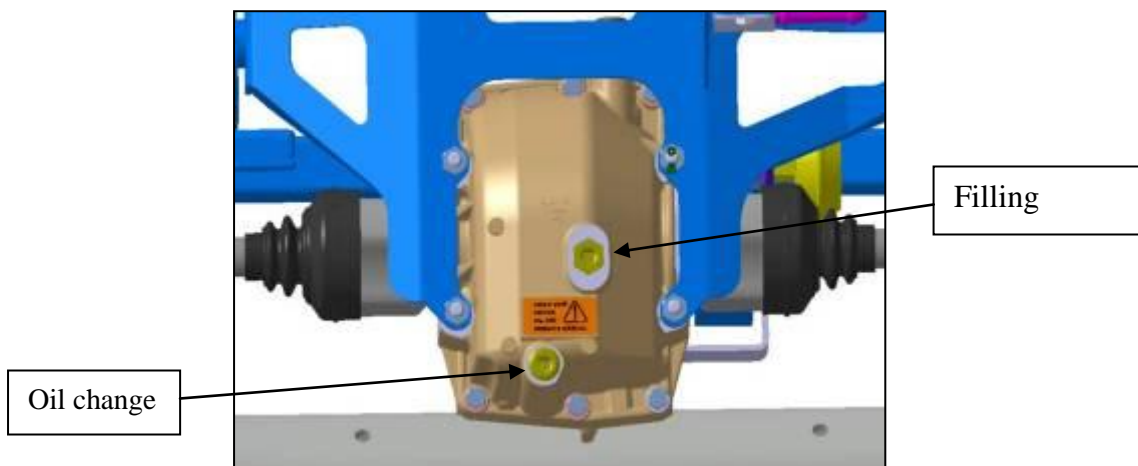

REAR AXLE

 **1ST guarantee inspection:** between 1.500 to 2.500 km

Capacity : 1.1 litres

Oil : 80 W 90 API GL5 (YACCO BVX LS 200), equivalent to **80W90** according to norm API GL5 ZF TE-ML05C.

Oil change : every 20.000 km or 2 years in normal use, every 15.000 km or 1 year in intensive use.

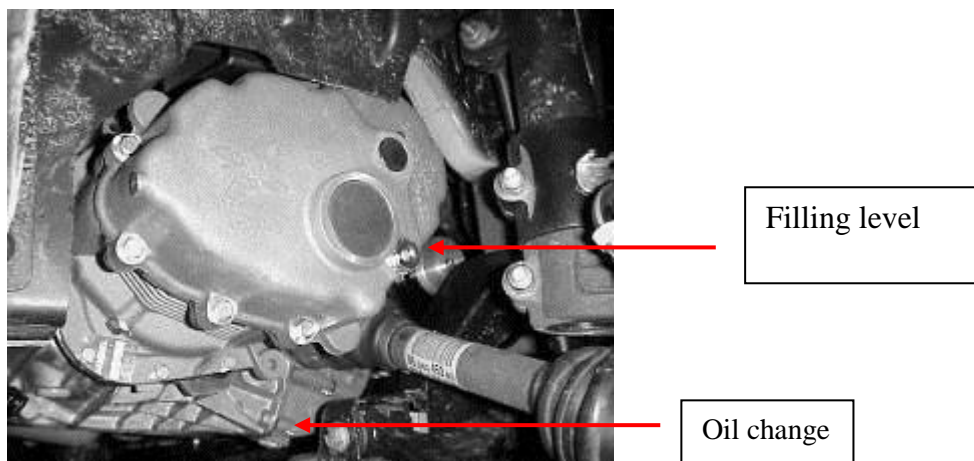

GEARBOX

Note : These values are valid for Partner / Berlingo Trek 4x2 and 4x4

- Standard gear box : please see the constructor's instructions
- Standard gearbox with rear limited slip differential (limited slip differential and only "Trek") :
 - Capacity 1.8 litres
 - Oil 80 W 90 API GL5 (YACCO BVX LS 200), equivalent to **80W90 according to the norm API GL5 ZF TE-ML05C**
 - Oil change every 60.000 km

- Gearbox with reduction gear (without limited slip and only 4x4 vehicle) :
 - Capacity : 1.9 litres
 - Oil is identical to basis vehicle
 - Oil change every 60.000 km

Note: when replacing a transfer box or rear axle by a new part, the 1st oil change between 1,500 and 2,500 km is compulsory.

LONGITUDINAL DRIVE SHAFT

Lubricate the cross pieces* during the 1st inspection 4x4 or once a year.

* : Lubricators are present or not according to the drive shaft types.
